

Karen Ondo

Diebold Healthcare Advisory Board Member

Karen Ondo has more than 30 years of healthcare technology, systems, business and clinical experience as a result of positions including: VP/CIO of a 49 facility IDN (the sixth largest public healthcare system in the United States that spanned the acute, ambulatory and home health continuum with academic affiliations); Director of Laboratories; vendor management responsible for product design, development and installation of integrated systems; and now executive vice president, KLAS Enterprises, a market research and intelligence firm specializing in healthcare IT performance monitoring.

As VP/CIO organization named in the 100 Most Wired Hospitals and Health Systems, by *Hospital & Health Networks* (1999, 2000, and 2001). Previously identified as "one of Healthcare IT's Most Influential People" by *Advance for Healthcare Information Executives* magazine; named 1999 South Florida IT executive of the year by ITEC; SFLHIMSS Chapter President 1998-2002; and served on the HIMSS National Board of Directors 2004 – 2007, HIMSS Foundation 2005 – 2010, serving as its chairman 2009 - 2010. She is currently engaged in various educational, consulting and advisory capacities to assist academic, provider and vendor organizations in the U.S. and Internationally. Her recent published articles, reports and speaking engagements involve local, national and international settings. She is also a ten time HIMSS national speaker.
