

Diebold and MEDSEEK Announce Strategic Alliance to Empower Patients and Improve the Overall Healthcare Experience

Birmingham, AL – June 27, 2011 — Diebold, Incorporated (NYSE:DBD), a global leader in providing integrated self-service delivery and security systems and services, and MEDSEEK, the leading provider of enterprise eHealth solutions for hospital systems that give patients, clinicians and administrative staff an optimal [360-degree online experience](#), have joined to offer healthcare facilities self-service solutions that enable patients to confidently and securely automate appointment scheduling, check-in and co-payments.

“MEDSEEK is very excited to support Diebold’s expansion into healthcare,” said Shaun Priest, MEDSEEK Senior Vice President of Business Development. “We feel that this is a great opportunity to further our organizations’ shared goals of empowering patients to manage their own healthcare and improving the patient experience.”

By integrating Diebold's Patient Automated Care Experience (PACE) [self-service kiosk](#) with [MEDSEEK's virtual patient solution](#), a healthcare facility can personalize the patient experience upon check-in, and provide a setting similar to what they have enjoyed in other industries such as banking and travel.

“We are pleased to continue leveraging our history of secure, self-service technology to meet patients’ growing expectations to access their personal health information,” said Dave Byrd, vice president and general manager, healthcare solutions, Diebold. “Our MEDSEEK alliance creates an opportunity to provide patient-centered technologies that securely integrate patient information with the existing systems in use at healthcare organizations”.
