Capturing Your Customers' Payments

ImageWay® Payment Processing validates your customer's Check payments closer to the point of presentment giving you the opportunity to increase revenue. Reduce labor by providing image-based lockbox services with intuitive and easy to use screens. Mitigate risk by reducing errors and isolating exceptions while decreasing fraud.

Capturing Market Share

Offering ImageWay® Payment Processing to your own clients under your own brand enhances their banking experience and adds opportunity for you. Your customers can connect directly through their online account and perform searches, view images and print reports from the convenience of their

own office. The information can also be downloaded into popular accounting software packages reducing your client's costs and adding greater value to your financial relationship.

With low entry costs, ImageWay® Payment Processing enables you to capture market share in new geographies and in new markets, while gaining a larger share of wallet from your current client base. The ideal solution for any coupon payment processing task, ImageWay® Payment Processing offers a premium level of financial control, efficiency, convenience, and accuracy.

Looking to reduce costs of servicing volume payment recipients? Try ImageWay® Payment Processing.
