Let's start a conversation about how ImageWay® Remote can reduce costs and support your business strategy. Please contact your Diebold representative, visit Diebold.com or call **1.800.806.6827**

IMAGEWAY® REMOTE

Comprehensive Payments & Imaging Solutions
that Create Opportunities

BRINGING YOUR CLIENTS CLOSER

ImageWay® Remote allows financial institutions to provide their corporate and merchant customers with the ability to make check deposits from the convenience of their office utilizing image-capture software and hardware. It is both a cash management offering as well as an integral component of an enterprise-wide distributed capture model.

Benefits to commercial clients include faster funds availability, improved timing of bank deposits, reduced courier and fraud costs, and improved internal reporting capabilities.

One of the most prevalent advantages to this solution set is the ability to further solidify your client relationships by empowering your corporate and merchant accounts with the tools to maximize their cash management practices.

Such added benefits and convenience make it easier to attract and retain clients, improve your share of wallet with existing clients, strengthen client relationships, and increase your geographic footprint to reach new clients.

Your Clients Benefit

- Easy to use
- Mitigates risk
- Speed to Market

Diebold ImageWay Remote Offers You

- Simple, intuitive interface
- Quick and easy set up
- Deposits can be scanned at different time intervals throughout the day to smooth workflows
- Highly portable
- Secure, browser based system protects against lost work and down time
- Duplicate item detection controlled by Financial Institution to guard against errors and fraud attempts
- Double check detection ensures all Client items are included for deposit
- Full service organization offering depot model replacement within 24 hours
- Core independent
- Compatible with existing environments
- Diebold Outsourced Services enables rapid deployments
- Full turn-key support
- Can be implemented independently of other processing platforms

A Complete Approach

The competitive dynamics that exist today require feature rich solutions brought to market in an expedient manner. By combining advanced functionality, well-defined business processes, and robust technology, our customers gain productivity, reduce costs, and ensure the quality of their services to their own clients.

A Perfect Fit, No Matter What the Size

Diebold ImageWay® Remote is a secure, browser-based, thin-client system ideally suited for corporate and merchant sites. Clients prepare and submit deposits from the comfort of their office, potentially improving their cash position through faster receipt of deposits. Using Diebold's ImageWay Remote, check items are scanned, converted to images and transmitted via a secure Web interface for final validation and processing.
